(The Chairperson, Standing Committee on Energy)

THAT, AWARE THAT on 29th March 2021, a presidential taskforce was formed to review power purchase agreements between the Government and Independent Power Producers, during which a moratorium was imposed on Kenya Power and Lighting Company (KPLC), preventing KPLC from signing new agreements or renewing existing ones with Independent Power Producers, which moratorium was lifted by the Cabinet in March 2023;

FURTHER AWARE THAT the National Assembly, vide a Motion adopted on 19th April, 2023 placed a moratorium, restricting KPLC from signing and renewing power purchase agreements (PPAs) with Independent Power Producers (IPPs) pending a report of inquiry by the Departmental Committee on Energy and the consequent House resolution on the report;

CONCERNED THAT Kenya imports 17% of its electricity from neighboring countries and faces a challenge as the growing demand for electricity is conflicted with the lengthy process of developing power plants, which usually takes 6-10 years from conception to generation, leading to electricity shortage and load shedding which impedes economic growth;

...../Motion
